

SCIENTIFIC AND TECHNICAL COMMITTEE

Prof. Carmen Andrade - CSIC Spain
 Mr. Kevin Armstrong - States of Jersey
 Prof. M. Basheer, Queen's University, Belfast
 Dr. Piotr Berkowski, Wroclaw University of Technology, Poland
 Dr. Hans Beushausen, University of Cape Town, S Africa
 Dr John Broomfield - Corrosion Consultant - UK
 Mr. Richard Day, The Concrete Society, UK
 Prof. Frank Dehn - MFPA Leipzig
 Mr John Drewett - Concrete Repairs Ltd., UK
 Prof. Dr. Vyatcheslav R. Falikman, Structural Concrete Association, NIIZHB, Russia
 Mr. Michael Khrapko, CBE Consultancy, New Zealand
 Prof. Konstantin Kovler, Technion, Haifa, Israel
 Prof. Minoru Kunieda, Nagoya University, Japan
 Prof. Viktor Mechtcherine - TU Dresden
 Prof. Nader Ghafoori, University of Nevada, USA
 Prof. Michael Grantham - Concrete Solutions & Queens University, Belfast
 Prof. Peter Hewlett, University of Dundee, John Doyle plc and the Institute of Concrete Technology
 Mr Steve Hold, Arup Cardiff, UK
 Dr. Raoul Jauberthie - INSA Rennes, France
 Prof. Carlos Jurado Cabañes, Polytechnic University of Madrid and Ingecal Ingenieros S.L. Spain
 Prof. Christophe Lanos - IUT Rennes, France
 Prof. Carmelo Majorana - University of Padova, Italy
 Dr. Lars Meyer - Deutscher Beton & Bautechnik Verein
 Dr Calin Mircea - INCERC Romania
 Prof. Rob Polder, TNO Netherlands
 Prof. Peter Robery - Halcrow UK and Leeds University
 Dr. Valentina Salomoni - University of Padova, Italy
 Dr. Ulrich Schneck - Citec GmbH - Dresden
 Prof. Harovel Wheat, University of Texas at Austin, USA

POST-CONFERENCE WORKSHOPS

There will be two one-day post conference workshops on the 29th and 30th September 2011, following the conference. The topics will be "Advanced Fibre Reinforced Cementitious Materials for Strengthening and Repair" (29th September) and "New Approaches to Corrosion Diagnosis" (30th September). See website for details.

Concrete Solutions

**4th International Conference on
 Concrete Repair 26th-28th September
 2011**

Dresden, Germany

Concrete Solutions 2011 - Dresden

Concrete Solutions 2011 is the 4th in a series of International Conferences on Concrete Repair. Previous conferences have attracted a wide range of delegates from practitioners to Clients to Academics and Students.

The aim of the event is to inform on the latest methods in concrete repair. Papers are invited on the following themes.

- Patch Repair
- Electrochemical Repair
- Strengthening Materials & Techniques
- Repair of Fire Damage
- NDT and Diagnosis of Problems
- Risk Management
- Whole Life Costing
- Surface Protection Methods & Materials

Key Dates

Submission of Abstracts Oct 31, 2010

Final papers 30 April 2011

Fee (Euros)	Before 31 May 2011	After 31 May 2011
Author	560	600
Delegate	600	640
Student*	Free!	Free!
	Limited Numbers	Limited Numbers
Enhanced Student*	175	200

*For Students, proof of status will be required

The Historic City of Dresden

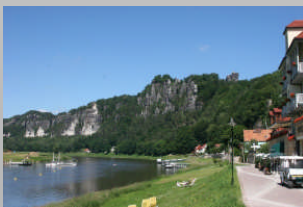

Dresden, the host city of Concrete Solutions 2011 and capital of Saxony, is a special place in many ways: it welcomes its visitors with a unique arrangement of the river Elbe and the downtown development – a decision made by the Saxon monarch Frederic Augustus II in the 17th century. You can still experience traditional Dresden dating back to the Baroque age with famous

sights such as the Dresden Zwinger, the entirely re-built Frauenkirche, the many art collections such as the Green Vault in the restored castle, the paintings gallery of Old Masters or get an impression of Dresden from 1756 in an unique 360° display in an old gasholder. (This is a must see – an art gallery in a converted gas-holder – and the panoramic view of old Dresden, with sounds, is stunning).

But Dresden doesn't stand just for tradition in culture and construction – also technical solutions many of us use daily were invented here, e.g. the coffee filter or the reflex camera. Hence, the Dresden University of Technology, whose roots date back to 1828, is a very creative place, hosting about 35,000 students, offering education in 14 different faculties and serving the industry with a huge annual budget.

You can discover Dresden today as a traditional and contemporary city with a vast cultural life and many interesting places along the Elbe river in a remarkable landscape close by – the sandstone rocks of Saxon Switzerland, the vineyards of Radebeul, the Chinese inspired Pillnitz castle or the old town of Meissen, to name just a few.

Nearby, Rathen, in the Saxon Switzerland area, provides a beautiful place to visit after the conference, or in Seiffen, near the Czech border, you can visit the home of traditional wooden toys.

There is so much to enjoy around Dresden, so bring the family!

The Conference

The conference runs over 3 days, with a conference dinner included in the conference fee. Current plans are for a Riverboat dinner on the Elbe, with a jazz band, making the conference unmissable!

The conference provides a good platform to exchange both scientific and practical information in a pleasant workshop-like atmosphere. Papers are peer-reviewed and the Proceedings will be published. Now co-sponsored by RILEM as well as ACI, and both the German and UK Concrete Societies, a wide international interest is certain.

The free student rate does not include meals, refreshments or proceedings. The enhanced student rate is fully inclusive of meals, proceedings on CD, and Conference Dinner. Full delegate and author rates include a printed copy of the Proceedings, all lunches and the conference dinner.

Sponsorship

A range of exhibition and sponsorship packages is available. Contact us for details of sponsorship and advertising opportunities.
